

Cape Cod National Seashore
Environmental Assessment
OPTIONS FOR MANAGING ORV ACCESS

On February 15, 2007, George B. Price, Superintendent of the Cape Cod National Seashore announced that they have been working on management options for off-road vehicle (ORV) access to try to avoid last summer's total daytime access closure of the ORV Corridor because of piping plover nesting patterns. An Environmental Assessment (EA) under the National Environmental Policy Act (NEPA) has been prepared. On March 3, 2007 a meeting was held in Provincetown at the Province Lands Visitor Center to solicit public comment on the newly released EA of modifications to the ORV program.

The Comment period in which to submit comments on the EA closed on March 17, 2007. Comments can be sent to the Superintendent, Cape Cod National Seashore, 99 Marconi Site Road, Wellfleet, MA 02667, telephone – (508) 349-3785, Fax – (505) 349-9052 or directly on the park planning website at <http://parkplanning.nps.gov> where the EA can also be found.
